

Headquarters MAX STREICHER GmbH & Co. KG aA, Deggendorf

STREICHER Group

With a history of more than 100 years, the STREICHER Group understands how to combine quality and specialised knowledge with many years of experience in the competence fields pipeline and plant construction, mechanical engineering, civil and structural engineering as well as raw and construction material. MAX STREICHER GmbH & Co. KG aA – the parent company, with its headquarters in Deggendorf, employs more than 3,500 people worldwide.

Innovation and investments made in future oriented technologies ensure a constant development of the business activities and guarantee a long-term performance of the STREICHER Group.

- Recognised vocational training in accordance with the German Vocational Training Act (BBiG)
- Vocational training within the company, the vocational school and training centers

PLANT MECHANIC (M/F/D) BRANCH OF PLANT CONSTRUCTION Information about apprenticeship

Location

The vocational training at a glance

Tasks

Plant mechanics fabricate plants, which are used in the fields of tank and apparatus engineering, in the processing industry or supply engineering. According to technical drawings and instructions they prepare their works. At first, they fabricate single components by hand or using CNC-machines. Then they put the components together to form assembly groups. Assembly groups which are already put together are mounted to apparatus and plants. Afterwards the plant mechanics control their functionality. Furthermore, the plants are handed over to the customers, who get instructed in the operation. Beyond that, plant mechanics maintain the plants and - if necessary - they reconstruct them or expand their functionality.

Skills

Skills in crafts and technical knowledge are significant for the practical use of metal processing and metal joining technologies. Good mathematical skills are advantageous when calculating the material requirements.

Training Period

The **training period is 3.5 years** and takes place in the company, the vocational school and in training centers.

Qualification

CSE is required.

The vocational training as plant mechanic takes place at our **location in Gommern**.
