- Recognised vocational training in accordance with the German Vocational Training Act (BBiG)
- Vocational training within the company and the vocational school

PROCESS MECHANIC, BRANCH OF ASPHALT TECHNOLOGY (M/F/D)

Information about apprenticeship

**STREICHER**

The vocational training at a glance

Tasks

Process mechanics, specialised in asphalt technology maintain, repair and operate asphalt mixing plants. They autonomously solve minor problems in the electrical and pneumatic sector and carry out the quality assurance by taking samples on a regular basis. Furthermore, they are responsible for the organisation of material transports.

Skills

Mathematical skills are required in order to calculate surfaces, quantities, volumes, weights or mixture ratios for the production of asphalt. Knowledge in chemistry and physics is also important, e.g. for calculating mixtures and metering. Furthermore, knowledge in crafts and technology facilitates the operation of mixing units.

Training Period

The **training period is 3 years** and takes place dual, in the company and at the vocational school.

Qualification

CSE is required.

Location

The vocational training as process mechanic, branch of asphalt technology takes place at our **locations in Deggendorf and Jena.**
