SURVEYING TECHNICIAN (M/F/D)

Information about apprenticeship

The logo for Streicher, featuring the word "STREICHER" in white capital letters inside a red circle with a white border.

The vocational training at a glance

Tasks

Surveying technicians deal with the evaluation of cadastral or topographic maps, plans and files. They set markings at construction sites and work with measuring devices, such as levelling devices which ensure the exact determination of the altitude of surveying points. Using the defined measured data, cadastral maps, topographic maps or construction drawings are updated and renewed by hand or computerised.

Skills

Excellent mathematical skills are required for the vocational training as a surveying technician. Joy in dealing with technical instruments, the ability to work in a team, power of concentration and very good visual thinking are inalienable. Furthermore, you should enjoy working with computers and thoroughly carry out tasks with great accuracy.

Training Period

The **training period is 3 years** and takes place in the company and at the vocational school.

Qualification

GCSE or a vocational diploma is required.

Location

The vocational training as surveying technician takes place at our **location in Deggendorf**.
